

Commentary PAO's 11th International Orthodontic Conference 2025: Smile 2.0 – Unleashing the future of orthodontics

The 11th International orthodontic conference was held in Islamabad on the 30th and 31st of October 2025. Educational opportunities such as workshops and lectures were led by eminent professionals to give participants the opportunity to enrich their skill set. More than just a collection of paper presentations, these sessions zoomed into specific clinical application.

In the two-day hectic program, a total of 27 international and national speakers participated with a mix of physical presence and online presentations. The conference offered collaborative and interactive professional development for orthodontists, boasting a program of interdisciplinary lectures delivered by renowned clinicians and researchers committed to fostering personal and professional growth within our community.

Participants had the chance to explore innovative technologies and solutions showcased through multi-generational and varied career-stage speakers, offering a glimpse into orthodontic innovations of today and tomorrow. The conference aimed to inspire participants to continue their journey of lifelong learning and collaborative community building.

At this conference the poster competition was very unique. The E-posters displayed on digital screens made attractive visual impact to entice viewers to read them. Industry and vendor support at the conference offered essential networking, product showcasing, and educational opportunities for all participants.

A conference gala dinner was special in making the participants celebrate and network. It featured buffet dining, entertainment (live band) and opportunities for attendees to connect in a relaxed yet elegant atmosphere

Prof. Dr. Haroon Qazi
Chairman Scientific, PAO International Orthodontic Conference 2025,
Principal,
Islamabad Medical & Dental College, Islamabad, Pakistan.
